

# Conflict of Interest

The authors declare that they have no financial or personal relationships that may have inappropriately influenced them in writing this article. However, [Author Name] has previously worked as a consultant for [Company Name], which manufactures a product related to the research study.

To minimize the potential influence of the conflict of interest, [Author Name] was not involved in the study design, data analysis, or interpretation of results. The study was conducted independently of [Company Name], and the authors declare that the company had no influence on the study design or interpretation of the results. Additionally, the authors used a blinded approach to data analysis to minimize any potential bias related to the conflict of interest
